NO, NO! NO! NO MORE
Excess URANIUM OR ANY URANIUM
AT PORTSMOUTH GASEOUS
DIFFUSION PLANT. WE'VE HAD THIS
KILLER HERE SINCE THE 50'S. NO MORE.
THE FISH IN SCIO TO RIVER ARE COVERED
WITH SICKNESS, THE BOTTOM FEEDERS ARE
ALREADY DEAD. THE WELLS ARE
CONTAMINATED, THE TREES ARE DYING.
PEOPLE ARE DYING - GO TO HOSPITALS IN
COLUMBUS. NURSES ASK "WHERE ARE
YOU FROM?" YOU REPLY "PORTSMOUTH"
THEIR RESPONSE "OH THE CANCER CAPITAL
OF THE STATE."

② you clean this killer
up at Fernald and Hanford
and ship it someplace else to
~~CONTAMINATE~~ another place.
How stupid can you get? For years
you've talked "Jobs" well you know
what you can do with your "Jobs"

③ If Mr Jackson is so enamored
with "PROPERTIES for solar collectors"
then let him stop it near him
at Oak Ridge TN. The last time
I was thru there the lake and
trees didn't look too healthy -
so move it to Mr Jackson or ship
it to DC. if it's so good I will
actively campaign against any NP which
does not fight this.
